SUMMARY

Dynamic and results-oriented Computer Science Engineering student specializing in Artificial Intelligence (B.Tech, 2021–2025) from Parul University. Passionate about developing innovative and impactful solutions with 2+ years of experience in freelance web development and hackathon participation. Proficient in the MERN stack, React.js, and Python, with hands-on experience building responsive and interactive user interfaces during a Front-End Web Developer internship at Oasis Infobyte. Currently exploring Web3 technologies and contributing to decentralized applications. Recognized for leadership as the Founder of the Cypher Elites Tech Community and awarded multiple hackathon accolades, including "Title of Parul University Hacker." Seeking opportunities to create cutting-edge user experiences and push technological boundaries.

PROGRAMMING LANGUAGES

JavaScript	Solidity	PHP
Python	TypeScript	C
C++		

FRAMEWORKS/LIBRARIES

React JS	Next.js	Express JS
Tailwind CSS	Material-UI	Bootstrap
Next JS	thirdweb	Hardhat
Django	Flask	

TOOLS & PLATFORMS

Git	GitHub	Postman
npm	Yarn	Webpack
Vercel	Netlify	Firebase
AWS	MetaMask	thirdweb Dashboard
Figma	Canva	MongoDB Compass

DATABASES

MongoDB	SQL

EDUCATION

Bachelor of technology in Computer Science   **Aug 2021 - April 2025**
Parul University
- Major in Artificial intelligence
- Project on "decentralized crowdfunding app" using web3 technologies

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati.

- **Certifications:** Responsive Web Design (FreeCodeCamp), Python (GUVI), Google Ads Display Certification, Skilled CSS Certificate (HackerRank), Galactic Problem Solver (NASA Space Aaps).
- **Awards/Activities:** 6th Position in Parul Let's Hack (Hackathon), Title of Parul University HACKER by HackVengers (Hackathon), Title of Galactic Problem Solver by NASA Space Aaps Challenge.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Oasis Infobyte   **Jun 2023 - Sep 2023**
- Built and optimized interactive UI components using React.js, improving page load speed by 20%
- Collaborated with cross-functional teams to deliver 1+ high-quality projects on time.
- Debugged and resolved issues, ensuring 99% bug-free code in production.

Freelance React Developer   **Dec 2023 - Mar 2024**
Exzitan (Remote, India – Sri Lanka)
- Developed two React.js applications integrated with Firebase, creating robust and user-friendly admin panels for mobile app user management.
- Upgraded an existing React.js app, optimizing its performance and improving efficiency, enhancing admin functionality by 25%.
- Collaborated remotely with cross-functional teams to ensure seamless integration of features and adherence to project timelines.
- Delivered scalable and maintainable code, ensuring future-proofed solutions for admin operations.

HACKATHONS

NASA Space Apps Challenge 2023
- Developed a data visualization tool for real-time space data, achieving the "Galactic Problem Solver" award.

Hacker House, Goa
- Created a decentralized Web3 file storage app leveraging IPFS and thirdweb.

Parul Let's Hack
- Secured 6th position for "She Shield SOS App," a safety app for women.

Hack-Vengers
- Built a blockchain-powered ticketing system for secure event access.

COMMUNITY CONTRIBUTIONS

Founder, Cypher Elites Tech Community (Parul University)
- Organized workshops and hackathons, fostering a collaborative tech environment.
- Taught 17+ juniors about web development and all tech skill i know to the community members.

TECHNICAL PROJECTS

- **She Shield SOS App:** Designed an app for women's safety, achieving recognition in hackathons.
- **Decentralized Google Drive (Web3):** Developed a blockchain-based file storage application using thirdweb and IPFS to ensure decentralized, secure, and transparent file management.
- **Admin Panels for Mobile Apps:** Developed two React.js admin panel applications integrated with Firebase, enabling efficient user management by app administrators.
- **Crowdfunding Platform (Web3):** Built a decentralized crowdfunding platform using Solidity and thirdweb, enabling secure and transparent fundraising with integrated Web3 wallet connectivity.
